Meadow <http://www.renmaps.de/pafiledb352/index.php?act=view&id=208> -BUT I suggest you to remove the objects.ddb + all INIs in this Map just to reduce the filesize (I'm getting tired of waste inside MIX maps). From 38 MB to 29MB unzipped.

My Future Gun^^

If you have the time, there are 30 KILLER maps, mostly made by aircraft killer. Try them, you'll like them

Go to: [www.cncnz.com](http://www.cncnz.com) search renegade, then click on downloads.

No, I don't want pictures, and everything. It's a HORRIBLE pistol. It's worse than the original M16, the one that jammed every few rounds.

The original M16 jammed a lot because the Army used a different gunpowder than what it was designed for. They put in a more powerful gunpowder, which produced more residue on the inside of the gun. The Army also didn't deploy many cleaning kits for the guns when they were first put into the field.

Plus it was made as a throw away gun. Yours jams, you toss it away for the one next to you. Mattel Toy Company even made the butt of the rifle.

Man what were they thinking, didn't they try it out before it was rushed to mass production?
