Install / uninstall with "normal" Renegade

Please check here.

Specifics for install with The First Decade

*MAKE SURE THERE IS A GAME.EXE IN YOUR RENEGADE DIRECTORY FIRST, IF SO
CONTINUE WITH THE INSTRUCTIONS BELOW:

This is a very simple one step process:

Before attempting to install RenGuard, remove the "(tm)" from Renegade's file path. Example:

C:\Program Files\EA GAMES\Command & Conquer The First Decade\Command & Conquer
Renegade(tm)\Renegade

Once removed RenGuard should install as normal.

OR

When installing RenGuard you can add the "(tm)" to the filepath RenGuard suggests. Example:

RenGuard may suggest this filepath:
C:\Program Files\EA GAMES\Command & Conquer The First Decade\Command & Conquer
Renegade\Renegade

Add in the (tm) so it looks like this:
C:\Program Files\EA GAMES\Command & Conquer The First Decade\Command & Conquer
Renegade(tm)\Renegade

If you're unsure of how to rename this filepath:
1. Right Click on the start button
2. Click explore
3. Navigate to the The First Decade's dir(take note of it when installing)
4. Right click on the "Command & Conquer Renegade(tm)" folder
5. Remove the (tm)
