i am sure must of you know but i must say this so the little kid that made a crappy map will understand.....serenity didn't claim to make that map , she hosted it on the server for people to play and was on her site so people can download the map....because the little kid is crying because people

---

wanted to play his map on a server then maybe he shouldn't make anymore maps...if you also made more maps we would like to know so we can take them out of rotation and remove them from the downloads section....

now do you understand that she didn't claim to make the map, that it was a map in our rotation??????

It's Serenity from the GDE clan. Feel free to bitch her out in person:

<http://www.clan-gde.net>

I know because she is the only one associated with Renwars and won't shut up about it.

P.S. She'll turn every arguement you have with her into a battle of the lackwits. Saying the dumbest shit possible all the while having all of her friends, of whom are even more moronic than she, attempt to back her up with their feeble air-expanses they call brains.

1st off you PRICK, she didn't claim to make it...when you upload maps to her download section it adds you(the person uploading it) as the author to the file...she merely forgot to blank that field out, but you are too much of a flaming ass to point out a mistake and ask for it to be corrected. Instead you act like a DICK and start flame threads as if someone cared about that crap map and cry like the girl you are and get tears on my forum floor whining about it...

luv2pb wrote on Wed, 24 May 2006 10:05 serenity is a she and she likes to take credit for things that are not hers

Explain your crying bitch session to us all and how she stole what or are you pissed cause she took over where others quit or left?

I already saw you crying in IRC server channel and claiming she STOLE fasctc0nn, which was given to her...dunno what your menstrual cycle is giving a crap about that for...get a life and stop crying about it...if you didn't like how things went, maybe you'd of stepped to the plate and taken it up as a responsibility...christ I paid for that server also solely for I don't know how many months...some people who I'm sure I forget gave a lot to me in donations like Gactech or EvilSage or TooSmiley or Kilusama or others I'm forgetting...so unless you have some other story to tell us...take a seat or bust out some credit card statements about how you or Opty financially tried or helped to keep it going...or did you quit and get pissed that the community, Theaer, Spodi and others, asked her to host it and she and I did? Is that really your bitch and claim to her theft? You quit? Well then your bitching is at me because I OWNED the server and paid for it with some assistance at times from others...and when we were done, we passed the info on to the current people running it because they wanted to keep it going like we did...

And WTF is up your ass? Your bitch is about GDE because your clan basically kicked your ass out...

Why is that proof? She played with them for a few weeks and may even still be with them

because of the idiots running UN kicked her ass out because the elders treat their members like crap...its not like shes the GDE poster girl...she's barely GDE but more over just friends with them as I am...and again, them being the ones that voted your ass out of the clan because of your attitude basically...

Grow up and get a life...everyone of you...stop blaming you failures to act like adults on someone else...you sound like a group of babies that need a bottle...

Oh, so the truth comes out. You're an overprotective boyfriend who jumps down the throat of every person who dares to even give her the slightest of a dirty look. It's the internet. What people think of her there holds absolutely no face value. Do you realize how many people hate/dislike me? I've lost count, and yet I don't care.

Take a chill pill and just ignore the whole situation. One or two people's opinion of your girlfriend is:

Not that I'm excusing Jeep Rubi for what seems like an over reaction, but look at it from his point of view.

He puts the time and effort into making a map, and while viewing the website, notices that the name under "author" is not his, but someone who appears to be taking credit for his work.

It may have been an error, but the appearance of it was that it wasn't.

Of coursem that's not to say the whole thing has been blown up beyond what it should have been.

I left GDE. I wasn't voted out of it. If you're going to try to throw something in my face, at least make sure it's true.

I'll take GDE's word for it over yours...

Because, as we all know, listening to whiny and immature clans for fact is the best thing to do.

Ask Reckneya or D4rkFyre, I'm sure they remember the letter of resignation I left. Perhaps Coolair remembers as well.

It's a sign of respect if you give a reason as to why you're leaving/quitting. If you just up and leave, you're disrespecting the people you're leaving behind, and you cause unnecessary panic for

whatever reason someone needed him. If I was leaving this community, I wouldn't say bye, but I also don't have a position of importance on the forums. If I was to leave my IRC network, I'd surely resign rather than disappear.

Yes, because suddenly up and leaving when you're in a position of responsibility - in a game or otherwise - without any warning to let people get a replacement is the PERFECT way to not totally screw over a couple of friends.

Furthermore, the last sentence there is clearly a Reducto ad Nixonum ad hominem attack. Id est, you're attempting to discredit your opposition by comparing him to a villainized historical figure. Usually, said figure is Hitler and/or Nazis, but in this case it's Pres. Nixon.

And yes, I do know ancient Latin.

I know pig latin, big fucking deal...you feel smarter having told us?

My reference to Nixon is that Nixon resigned. Does it mean that Nixon felt it was time to go, life was good, he was just getting tired or that his ass was on the chopping block and it was better to run and save some face???

Translate that into ancient latin for 600 Alex...

Let's play name that resignation.

Short of burned out press secretaries, name the just regular resignations from a political stand point.

I'll start ya...

Greenspan.

I bet I can name 9 to 1, more people pushed out of the White House in the last 25 years than you can name that simply wanted to go on...and again, that doesn't include press secretaries, they never last good or bad...

It's pretty obvious that you're trying to compare the two; you could at least follow through on it instead of half-assing a dodge.

Yes, I do feel smarter. Not to mention that I'll again reinforce my ego by pointing out that your Jeopardy! analogy is flawed, as that isn't small enough to be a question category, nor would it be a very effective answer/question pairing.

And again, you're using ad hominem attacks, this time attempting to discredit me by focusing on my usage of Latin instead of attempting to disprove my claim that you're trying to compare two people to make one look bad.

Sorry, but "everyone in history" doesn't include limiting itself to the whitehouse, not including press secretaries, or whatever.

Everyone in history means, EVERYONE in history.

If everyone in history that has resigned, has done so to save face because they were being fired, then you have a decent argument. If not, then your comparison is moot. Comparing one resignation to another of your choosing (ie. one that supports your argument, to the exclusion of all others) does nothing to bolster your position. Rather, it weakens it.

Everyone just got pissed when someone stood up and counter bitched at those 3...

Makes sense...lmfao

You're still a retard when you "resign" playing a game or being in a clan...say I'm leaving...then leave...I mean do you sign it? Do you give two weeks notice? Do you get a severance package like rights to the clan section for an extra month or 2 additional stars on your name for respect due to service to the clan? Does anything change or anyone care? Does it mean you are no longer reachable or does it mean you pulled three stupid letters of your game name? Kids and even you adults have no grip on reality...seriously...this is a game and since you have little to no grip on reality, or sadly enough this is your reality, you act like it matters...

Do you post on job resumes I retired from OZ in 1999, co founded Dead-6 in 2000, retired in 2004 due to injuries, reactivated myself in late 2006 after rehab and made an all star Pitts team in Dec 06?!?!?

The fact remains that they are people and they do deserve knowing that you're leaving. Also, resigning explains a lot as to why they're leaving. Not just, "LOL, I GO." If someone wants to resign because they feel strongly about something, then why complain? You're just trying to make yourself look better by insulting him because he has enough respect for people to kindly step down rather than leaving people high and dry. See it the way you want, but it only makes you look like a fool.

It's sad when the idea of respect no longer means anything to someone. Either that, or the person has some serious maturity issues (age related, or not).

You state that you are leaving out of respect to those you have been with. It may simply be the internet, but that doesn't mean respect has to go out the window.

I'm quite amused by the idea that having respect for people you have dedicated your time to means you have lost your grip on reality. Just because this is the internet does not mean real people are on the other side of that user name. Oops, sorry. I guess if real people are involved, it must involve real life. My mistake, I had no idea such advanced AI existed!

I honestly can't add much to what Warranto and J\_ball have said. This may be the Internet, but that doesn't mean that being a little bit polite will kill you.

Furthermore, I fail to see how I communicate with my friends should modify my amount of respect for them.

And for specific points:

"Point of the topic": A discussion changing topic!? Who would have thought of THAT?! Though looking back makes it seem like you're the one who drove it off topic in the first place... Something about feelings... and kicking things.

"Two weeks notice": If I'm an admin/webmaster/owner of hosting/whatever for a clan, then yes, I AM giving them notice before I quit and possibly stop paying bills or running servers.

"Severance package": Actually, many online communities DO continue to hold a lot of respect for former leaders who left under friendly terms. A respected leader isn't suddenly not respected because they got a promotion and now need more time for work, or a thousand other possible scenarios.

"Grip on reality/making friends": Yeah, because everyone KNOWS that the servers that we play

on aren't real, the servers we host websites on aren't real, the money that pays for those servers is made from construction paper, and there's NO ONE behind those screennames.

"Resumes": Perhaps not, but "Webmaster for popular gaming site" wouldn't look so bad on a resume for an IT professional or a programmer...

"Bandwagons": I'm not jumping on you because of the bandwagon, either. You can stop with the insults and personal attacks whenever you want.

"He started it!": Let's assume that he had come in and just started up with the insults as you had. This gives you license to do the same... why? Additionally, I fail to see how his behavior justifies yours, when you could have calmly debunked his argument or lack thereof instead of going off like a firebomb.

Though looking back through the topic, I see one insult from gbull, quickly followed by an essay full of them from yourself.
