How do you make a server play mp3 songs while the game is going?

Subject: Re: Server MP3s Posted by AmunRa on Mon, 29 May 2006 00:08:57 GMT View Forum Message <> Reply to Message

use an irc script, and you need to know the names of the songs inside the always.dat file.

can you play other songs Not in your allways.dat file????

Subject: Re: Server MP3s Posted by EvilWhiteDragon on Mon, 29 May 2006 08:28:51 GMT

yes and no, they has to either be in your renegade dir by default or the players should download them before.

Well, if ren was anything like what valve has where it forces the client to download anything it doesn't have, such as sounds. But thats the way of the worlds tho

lol you have steam, i play DoD or css or cs or csz lol I'm getting HL2 soon :yay: but if you want add redlighter to your friend thing on steam , also its stupid that valve makes you download it, it could be a virus, or something, but still its better than having to download it from the site tho

No, I am smart with renegade fds stuff, but have never thought about having the server .mp's....so now that I will consider them, I would like to know its fuetures etc, is there any support for it either?

mIRC, mIRC script, and that file is all you need. your lucky I feel like putting together a zip for you http://www.amunra.net/ssaowscript.zip <-- for ssaow http://www.amunra.net/scriptaow.zip <-- dual channel script + more you can use those, or take what you want from them, these were originally for use with brenbot

Hey AmunRa. What this ssaowscript.zip exactly do??? Try descibe it please. Have more some scripts??? I collect some script for my ExBot. I need some ideas.

Your script (scriptaow.zip) is cool. I change some things but is very good. (I love some sounds). I am n00b in scripting. And sorry for my lang. I am from Slovakia.

Subject: Re: Server MP3s Posted by AmunRa on Thu, 01 Jun 2006 01:52:27 GMT View Forum Message <> Reply to Message

it reads the ssaow file, as brenbot lacks that function. You could of course also incorporate it into your own bot

Subject: Re: Server MP3s Posted by Whitedragon on Thu, 01 Jun 2006 02:50:03 GMT View Forum Message <> Reply to Message

The only thing that needs to be said about that script is "WTF?". Why is it checking the preset of every building and infantry? Whats with the \$date alias? Just use \$date(m-dd-yyyy). The way it reads the log will make it skip lines if 2+ things are written at the same time. Use BCF instead. var %msg = \$1-

if (\$1 == msg) var %msg = \$1 \$2-

That piece of code is useless, %msg will be set to the same thing either way.

in the new version, 1.43, brenbot can now reads ssaow messages

BCF is?

I am adimittedly not the best IRC scripter, I haven't exactly ever done much with it.
