## Subject: Renguard wont install
Posted by King Gonzo on Tue, 30 May 2006 04:16:38 GMT

Simple problem. Renguard won't install after I've gone through the steps upto the point where the installshield client stats "Renguard is configuring your new software installation" which is at the very beginning. It's probably a problem with installshield but if anyone could help me out that would be great.
