I belive you mean the patch that downloads when you first go onto renegade online.

You might wanna go here
http://www.cncnz.com/files/renegade/patches.shtml#ren1037e

And download it.
Then just install that and get on renegade online and it should work. If it doesnt please post here again...

Hang on a second... Doesn't vianet.ca look a bit too familiar? (I may be wrong)
