Hey, this is "Seal." I changed my screenname, obviously. For those who don't know, I'm now a texture artist for Reborn.

Both models are by Permagrin. Textures are by me.

**GDI Sniper Rifle** 

Nod Flamethrower

It looks like the sniper rifle is rendered in grayscale. My opinion is to add some color.

I really should have done a w3d render for the sniper rifle (the flamethrower IS a w3d render). I didn't have a .w3d file of the rifle on me and got a little lazy.

Anyway, I'd say for an almost completely metal object, there is a bit of natural discoloration. For example, here's a closer look at the barrel side by side with it's grayscale counterpart. Other than that I don't really see where adding colored things fits.

EDIT: I tried adding greenish paint to it like portions of the renegade pistol or rocket launcher. It didn't look that great...

I might just be me but those two barrel thingys look exactly the same to me. Anyway, the ingame lighting might make it look less grayscale.

Besides that, both weapons look awesome.

it could be your screen, the one on the left has a slight green/yellow tint.
