how do poeple create those brilliant images, that look 3d and are very smooth take this for example: <http://mods.moddb.com/gallery/image/46943/>

how is it done?

icedog90 wrote on Thu, 24 August 2006 01:08Not photoshop, fool. 3D Studio Max.
Once you have the renders you want you could easily photoshop that.. you could also probably do it in 3ds, but I was just saying that because I've never used 3ds and know that you could do it in

photoshop..

[View Forum Message](#) <> [Reply to Message](#)

Most people who make good renders in 3D Studio Max don't touch it up with Photoshop, unless you're someone on deviantART.

[View Forum Message](#) <> [Reply to Message](#)

I don't see what is so shameful about using photoshop or something similar for touching up something like this. You could use one or the other, I suppose, but what's wrong with using both?

Subject: Re: how do people do this?

[View Forum Message](#) <> [Reply to Message](#)

There isn't anything wrong with it. He is our 2D artist and that is what he does, he makes 2D assets.

We love Kalle Bowo, He rocks.

EXdeath wrote on Thu, 24 August 2006 00:41 Kalle Bowo used photoshop to make all of those.

What I meant was the renders themselves. Of course they used photoshop to add the layout on the buttons. Even if they did use photoshop to touch up those buttons, I don't care at all. It's for the mod and anything you use to make it look better helps.

There's nothing wrong with touching things up with Photoshop, but it bugs the crap out of me when someone makes a render for a mod, a game, or just as art in general, and then uses photoshop to tweak the crap out of it and still calls it a 3D render. This is very popular with digital photography, and that bugs me a whole lot more.

so basicly you create the image in a program like gmax? do you skin or paint the model?

Subject: Re: how do people do this?

Posted by [Mad Ivan](#) on Fri, 25 Aug 2006 00:52:29 GMT

[View Forum Message](#) <> [Reply to Message](#)

You create the model in 3D Studio Max, apply any needed materials/textures/whatever, render with 3D Studio Max in the desired position(s), save the render(s), open it(/them) with Photoshop, cut what you don't need, apply a background (eg. a view of the Whitehouse or something), add effects (like lightning in the sky, etc), apply any other filters you need and Ctrl+S.

There are a lot of other ways of doing this.

[View Forum Message](#) <> [Reply to Message](#)

When you render things in 3D Studio Max, you add certain lights and can give it a certain look that way.

[View Forum Message](#) <> [Reply to Message](#)

If you really want this program, register and download it yourself. You can only download a 30 day trial unless you buy a serial from them.

[View Forum Message](#) <> [Reply to Message](#)

still much, butter better
well, I gues I stick to Renx

(if discreet make a othere 3d program and give this away)I will use 3ds max)

(isn't dreaming nice?)

Subject: Re: how do people do this?

Posted by [Zion](#) on Fri, 25 Aug 2006 18:36:06 GMT

[View Forum Message](#) <> [Reply to Message](#)

Discreet is no more since:

1. Autodesk shut it down/bourght it out.
2. Discreet is Autodesk, they just changed their name.

People can buy network liences for all machines on the network, and, if you're really into modelling or graphic/3D design, you would pay that price for this.

Subject: Re: how do people do this?

[View Forum Message](#) <> [Reply to Message](#)

Like above, 3dsmax is something you would buy if you're really into it, plan to make money from it, or if you're a company that makes games. It's not something an individual would buy just because. Any mod maker out there that uses 3dsmax has surely cracked the program. If you actually start making money from 3dsmax, you'd buy the program.

The student version is meant for people like us, but unfortunately even that is quite expensive and not affordable for any of us.

[View Forum Message](#) <> [Reply to Message](#)

I usually dont crack programs but since there is no way a 14 year old is going to be able to buy the program i had no other choice. Its not like im using it to make money or anything.

Anyways, how does someone learn a program without having acces to it.

[View Forum Message](#) <> [Reply to Message](#)

he does not use photoshop. he takes W3D viewer and uses it

Subject: Re: how do people do this?

Posted by [YSLMuffins](#) on Mon, 28 Aug 2006 22:51:06 GMT

[View Forum Message](#) <> [Reply to Message](#)

Don't ask, don't tell. If you ask for help here we won't make any negative assumptions about you or ostracize you as long as you abide by that.

Of course, asking how to crack stuff is not allowed.

Subject: Re: how do people do this?

Posted by [jnz](#) on Tue, 29 Aug 2006 15:38:49 GMT

[View Forum Message](#) <> [Reply to Message](#)

it does cost too much! ROFL if it was cheaper much more poeple wouldn't "crack"

i promise i didn't crack it...quick, next subject.
