Hello, I found these 4 models, and was wondering if they were created by anyone?

If so, Can I get permission to use them in various maps with credit to the creator?

I have seen the med tank in erm, C&C\_Snow.mix when you buy a med. I haven't seen that mammoth anywhere tho. And, I remember seeing that light tank in unrules newmaps. I just don't know which one tbh.

try redone bones in gmax and check serverside them  
and post ss
