As some of you probably know, the (former) rp2 member, Napalmic Ice (Napalmic on Renegade) went missing on June 19th and hasn't been seen since.

Has anyone seen him at all? He has some important files for rp2 that sadly, will probably never make it into BETA3 if he never shows up.

If nobody has seen him, he's probably dead or something.

Anyways, his WOL Nickname is Napalmic and his AIM name is Napalmic Ice. Can someone please say if you have seen him recently? Thanks.
