Ok i managed to let Nod tanks shoot at any GDI target from its location (by giving it the m05_nod_gun_enplacement script) I also managed to let a Nod tank drive around and shoot at any target (with some M08 script i cant remember exactly and daves arrow's)

But i can't succeed in doing this with GDI. whatever i do. The tank wont attack. help me please

The daves arrow technique is so-so.

Simply add the script Neo_Vehicle_Ai, it will work alot better.

http://sourceforge.net/projects/rentools/

Download the latest scripts.dll

Also, you might want to check this page:

 http://www.renhelp.net/index.php?mod=Content&action=view &id=Getting+Started

That will get you upto our latest.

All the source code was sent to Jonwil shortly after 3.0 came out, so it should be in the next release.

As for the script it is in the Advanced bots package, its compiled with the latest scripts previous to 3.0.

There are like 30 mirrors, try this one:

 http://prdownloads.sourceforge.net/rentools/scripts292.zip?u se_mirror=superb-east

Oh and i got the scripts versions screwy, it should be in 3.0, and it was sent after this version was out.
