Everytime i try to log in this happens :

Message of the day:
Login to XCC Online Failed!

Error: Invalid Password...

                    ???

Right, Go to manage your account menu, And un tick the box "Allways use this login"

Next, Proceed so you get to MOTD (Message of the Day) And it wil lask you enter your password,
If your password is wrong, go back and do the same, and enter a NEW login nickname with a 8
charictor password, And that nickname will automaticly be registered to you.
