I know this will get ugly, and im ready to take hits as I am quite known to have some experience, but yeah.

I am "Matix" and/or "SeargentSarg" as some people may call me.

Recently, I changed my name, and everything, from Matix to ST3ALTH and stealth-server.net

Some people wouldn't do this, but I did, and I have good reasons for it.

- 1) I was being attacked non-stop.
- 2) I have had a bad reputation for being a known cheater / hacker, as well as a "ripper"
- 3) Copied sites

I changed my name, for those reasons, to take on the name of a new persona, in order to re-gain community respect, but not for in the name of Matix. I did this, because, I love this game, I have respect for everyone, and I did try my very damn fucking best to get away from my old habbits. Like for example, cheating, was a known habit, I simply changed that by getting addicted to xbox live, really, there are no "cheats" or "hacks" or "glitches" in those games, cause if they find it, they patch it 1 week after its found out, and I learned, how it is, to be a true team player, how it is, to play fair.

And now, again, for my apologies.

I am truly low for doing this, as I have disrespected my bestest of friends in this community, names would include, Caveman (for breaking his trust and lieng to him), danpaul (for lieng to him straight up, and saying someone that im not), and all the old rencorner regulars, members, etc. for completely abandoning them, leaving them in the dark, with a dead community. Kamuix, for lieng to him, he doesn't deserve this, and I know fl00d3d is going to celebrate this, but yeah, im Matix, and yes, I did this as well, and fl00d3d will probably continue with this for ages, but yeah..

I am Matix.

Please don't flame me, I have had enough crap going on... (Crimson, or any mod, plz lock this thread quickly)

Sorry to all of rencommunity.

Err... When you take on a new identity, you don't tell people!!! What's wrong with using your old one to apologise with?

You'd make an awful spy.

Please don't reply in this topic.. Im trying to avoid getting flamed at.

Also, I have my own reasons for why I admitted to it, and apologized.

I felt it was way to wrong to continue lieng and working the way I was. And the fact that I was caught by Caveman.. lol..

You were caught by Caveman and in front of a bunch of server owners. We just happened to be having a mini-meeting @ the time that he came in and asked to compare info. I'm not even going to comment on this topic, though. I kinda expected it.

The cheats always get caught then offer their apology.

Are you apologising because you got caught or would you have carried on cheating if you had not been caught?

I believe that a leopard cannot change its spots but can a cheat?

He wasn't caught cheating. He was caught pretending not to be himself and blatantly lying to people about it. And I predicted it because every time you fail at something, you have the positive attribute of picking yourself back up and trying again. Unfortunately, this is a community that is in some dark times and trust and strong relationships are very important - and you continually abuse yourself by doing this kind of crap. The interesting part will be to see what Kamuix does about it. I'm willing to bet money he knew (since I saw logs of him talking to you about working together).

The reason why he is admitting to it here is because I found out that he was Matix and questioned him on it, he of course denied it at first but when I threatened to tell people about it he confessed. (By this time I and everyone in #serverowners knew it was him) He is posting it here now because he feels that someone will post it anyways and start to flame him. (Which to be honest he deserves.) Basically he's doing this so he can keep whatever dignity he has left. I suspect he's also looking for pity. The only pity you're going to get is; Its a pity I didn't find out sooner.

Hehe I had solid proof that he infact was Matix from IRC logs of him having the exact same hostname as Matix, denied of course saying that Matix was a close friend of his
Here are some nice quotes like I like to think back to :

I really dont get the big fuss, he changed his name, lied about it, big deal guys..There is way to much drama in Renegade, he posted to get this off his chest. We dont need people talking shit about it. Big fucking deal..everybody lies, Admins lie, Owners lie...This lie may be bigger kind, but its just a lie.

I know that people dont like me and will flame me but w/e, Im not trying to take any shit for anybody, Im saying that you guys start so much shit its not funny. People can get the fuck over it in 1minute. But they seem its funny to post bullshit comments, and make it worse.

I really dont get it, Renegade its a game. Even though it gives people stress, it shouldnt. People get stressed about all the drama that happens, thinking that they're next.

Cant people just stop, he asked for people to not flame him cant you respect his decision. Hes a person, Im a person, fl00d3d is a person, Crimsons a person.

Forgive people once in a while, I know fl00d3d is a kindful respectful person. Why cant more of you guys be like fl00d3d.

Truely i think that if all the stupid drama dosent die soon, then somebody is going to post the worst topic, and itll shutdown the Renegade community.

Stop all the bitching about who he is, take it easy, take a pill, have a nap, take a shit, then come back to your keyboard.

Flaming this guy is complete nonsense, look, maybe he did cheat at one time, is he still cheating?

didnt you read his message? maybe i dont know him well enough to know if its a sham or not but from what I read in my opinion, thats not a hollow apology. He admmitted he had a problem, and fixed it, changing his name so that you people would stop flaming him. give the poor guy another chance, if he blows that chance then go back to flaming him. but he deserves at least that much.

edit: eep, sorry middle didnt read your post. by that time I was already kinda pissed. I agree with you fully.

As was already suggested, he should have admitted his errors under his old name. Then he could move move on in Renegade with his new name. That makes sense, but no sense has been made in the way he has posted.

What was the guy expecting? The community does not like cheats, h4x0rs, rippers or anyone else of that nature. The reaction of a few appear to be normal given the facts.

I suggest that he changes his name again, keeps quiet, tells no-one and moves on. Perhaps in a year or two he can re-post and tell us all who he is. Only time will tell if a leopard changes its spots.

This maybe a gaming community, but it gives him no right to rip other peoples work, nor does it give him the right to do some of the things ive read about him doing.

ALSO, Once a cheater, always a cheater. They dont change, they never have, they never will. Cheaters continue to cheat, liars continue to lie.

Don't defend him. I'm pretty sure Middle is one of his friends, anyway.

The whole point here is: changing your name isn't an issue. But when you HAVE to change your name because everyone despises you for cheating and stealing other people's ideas and being a downright low-life ... then you get caught ... it confirms his lack of integrity. And a lack of integrity is not to be praised or respected under any circumstance.

Just the other day I removed ALL blocks on my MSN (about 20 people) which I do every so often. I'm a pretty laid back and forgiving person. One of the first people to come to me was Matix saying "I'm sorry, I don't care about RenCorner, blah blah" trying to make it seem like he's trying to change. This right here proves that it was all a bullshit cover to help distract from his new identity.

Until you're affected, I don't expect you to understand. But for those of us that work hard and spend a lot of money on our servers and sites in this community things many people take for granted its extremely irritating to deal with people like this.

You can't complain about having things stolen or copied when you don't have anything to have stolen or copied. Most of RenCorner's shit (literally, most of it) was conceptualized by me and he constantly adapted it by watching me and holding on to pieces of information he remembered when he worked WITH me way before all of this started and I knew much about him.

I then real logs from "Tyler" (aka Hawk) ---whom I'm guessing is the same person as Middle? Can I get an IP check or confession??---; nonetheless, this Tyler kid who was partnered and friends with Greg/Matix/TehPwnerer/lccy/ST34LTH.. has gone on to co-found "b0ts-scripting" and has been threatening to DoS servers and attack websites. His entire staff was fucked up--not just him. And this "Rene Drama" is starting to negatively impact the entire community because these losers are spreading their influence through lies and deceit and people are dumb enough to let them use nicks.

Matix: we get the point, but you cannot honestly ask to save face from this community; nor can your staff. You honestly need to move on to another game and have your ass flagged by all communities and servers. Not only for cheating, but for blatantly lying to a lot of big names in the community.

Be gone!

Stole? Without giving back?

Does that mean that you did indeed steal. Then when you were caught, gave back the promised service?

GTFO thief.

So, Tyler, you're now following the same practice as Greg/TehPwnerer/Matix/ST34LTH/etc.. and changing your name every time someone calls you out for doing something dumb or immature?

Rencorner & b0ts-scripting are two communities that still have your names written all over it. I sure hope no one is dumb enough to work with you.

Dude they are nicknames, its game fl00d..No reason to get stressed about it..And tbh, Airforceowns is the owner of the server, and Klote.

Airforceowns: Owner of B0ts-Scripting.net

Klote: Co Owner of DUN Gaming

Its got on all the DUN and B0ts Tags that we agreed on. And Fl00d how can you talk when u paid what? \$130 a month for 6 months for a000~4.

Dont seem that its a big deal, Renegade is doing anyways.

fl00d3d, I don't see how your worth of anything here.

I remember you cursed out this whole community, said renegade is filled with jews, rene drama is too much shit for you, and that your leaving renegade.

You literally called basically everyone a "rene-jew".

Now, you shouldn't be here, and I shouldn't be here, but we both changed decisions now didn't we?

[1] I never cursed out the entire community, just some of the server owners that are selfish.

[2] There is, indeed, a lot of "rene drama" but it is caused by people like you.

[3] Do not say I shouldn't be here. I have WAAAAAAAY more of a right to be here than you. Why? I've been an active member in the community since demo. I have the respect of a lot of people in this community, unlike you. And I have helped fight cheating wherever possible, whereas you have been a cheater.

[4] Unlike you, I come up with original content for my sites and work -- rather than steal it from others, like you.

Just the other day you came to me on MSN (I will post the ENTIRE convo if you'd like?) and apologize for being an idiot, copying, and cheating in the past. And you insisted that you're clean these days and had nothing to do with the Renegade community. NOW THIS. Every time you lie, you dig your grave deeper and it will get harder for you to crawl out of. Keep what pride you may have left and don't even attempt to argue with me on this topic or you will be destroyed ... again. I was simply pointing out facts, and how much of a thorn you've been.

The conversions, good mods, skins, etc is keeping the cnc renegade community alive. As long as people extend the possibilities of gameplay in renegade, it'll live forever.

Those games are easily made. Renegade is unique and I don't think someone could easily create a new version of it to run on future technology and have it be accurate and well done. Even if they did, it wouldn't be as good, people wouldn't like it as much and wouldn't bother playing it.
