I told some people that I was going to give them some character models but never did because I was busy. So here they are. They are all set and ready to go just need to be exported.

All three of those are Extremly well done, the texturing is flawless especially for the mobster. The polygon counts are also really nice, as well as the wireframe on them seems exact without any addional un needed polygons.

Are these the only 3 you had, or are these the only ones you boned /textured etc? Otherwise all 3 id give a 10.
