Hallo,
ich möchte das man mit dem teil was oben abgebildet ist ein Charakter kaufen kann der aber festgelegt ist.
So wie bei dem coop Server bei der einen map ist so ein teil an ein Stein dran geht man ran drückt E dann kommt ein Fahrzeug.
So will ich das auch haben nur das sich dann der Charakter verändert in ein festgelegten Charakter.
Bitte um Hilfe.

I think he is talking about how he wants a character to be bought when you press the generic switch? If so, attach the script JFW_Character_Buy_Poke I think it is.

Make the generic Switch...
Then double click the generic switch on the map, so a box appears.

Click the scripts tab. Add JFW_Character_Buy_Poke, and copy and paste the preset name in. In this example I used the player Patch, on GDI.

Fill in the other parameters. The cost (in credits) and the player type, which is the team who can poke it. 1 is GDI, and 0 is Nod. Click OK on the Script Definition window and OK on the edit object window. Your script was added. Go into the game and try it out!

Yours tutorial is really good, only one problem is not n of D' mlich the file (JFW_Character_Buy_Poke) there is to be found. I have scripts.dll from the renegade folder in mine mod folder reingemacht under under folder Scripts. But, nevertheless, the file there is not to be found.

I have load the C&C_island.lvl in the editor.

If JFW_Character_Buy_Poke is not there you need to get the new version of the scripts.dll. Get it here -> <http://game-maps.net/index.php?action=file&id=828>

OK I have done it thus, however, it does not go. I have done new scripts.dll and the other there purely and then this obeys what you have written. Then I have (c*c_islands.ldd) them there there has originated in my Data folder purely done and renegade begun, however nothing happens.

Make sure you double click the switch on the map. DO NOT MOD THE ONE FROM THE PRESETS LIST.

In some cases modding the presets one could obviously work=P. Also if you have an old version of the resurrection client it will not work. If that's the case go download the new version=P.

Give a unit chemsprayer or mutant skin/armor.

Which character? All of them?

Is this something that happens when the character spawns? or after an event? Is this for a map? pkg? or server?

An dem teil kaufe ich mir die einheiten mit E dann habe ich sie gleich, so wie es oben beschreiben ist.

Da habe ich das eingestellt und auch beid enn anderen.

Aber es geht nicht.

Muss ich denn oben sehenden schalter die einheiten wieder neu zuordnen damit das geht oder reichen die änderungen die im 2 screen zu sehen sind?

Oder muss ich hier die charecter wieder neu zuordnen damit es wirksam wird ?

Hallo,
ich würde gern ein teleporter bauen der aber nur für ein Team ist.
Das heißt ich müsste das Team einstellen können und denn zielpunkt halt wo er wieder
auftauchen soll.
Noch eins wenn man zum Beispiel über irgendwas drüber läuft zbs. eine Signalfolge das
man dann zum Beispiel ein Hacok hat.
Mit ein kleines tutorial Wehr sehr hilfreich.
Danke im vorraus
