These files will allow you to improve your FPS on the map Volcano by lessening the smoke from the pp and from the lava. These files will be approved for Renguard soon, so u can run them with Renguard. Good for lower end computers.

Download here.

It got approved after all. Wonder what made you change your mind. SoQReaL no longer has to jump off C&C_City bridge over this.

Then again, what's with the errors lol.
