I have seen on multiple servers they somehow are playing the M00 mission maps, i have long since wondered how to acquire and use em as they did...i feel i could learn a great deal about levelEDIT by looking at these and playing with them...just as i have done with all other Worldbuilders on other games!

The best way to learn is to observer other peoples jenious i find in the Mapmaking/editing world, so please any and all suggestions of how to get the maps would be greatly appreciated.

Thanks 4 reading this

ftp://ftp.westwood.com/pub/renegade/tools/SinglePlayerLVLs.zip

Extract the maps from the zip, and open them with LevelEdit.

When it comes to scripts you have basically no hope of finding it out with the mission levels as they are all specialized for their jobs.

Indeed, but with a little testing, you can find out what a few do.
