Are you using any firewalls?

If so, make sure that

C:\westwood\renegade\game.exe

is allowed to connect to the internet.

I don't get it,u sad me to go the game.exe and when i did that it just Renegade the usual way with the renguard window that dont works. to be more specific,this is the the list of the latest stuff thing at the left side 16:18] Trying to connect to server #1...Connected!
[16:18] Secure link established.
[16:18] Welcome to RenGuard, maco2400!
[16:18] To launch Renegade, please click 'Renegade'.
[16:18] Bad/Corrupted file data\always.dbs has been found in your renegade directory.
[16:18] You have been disconnected from RenGuard, maco2400

Go to your firewall(if you have one) and allow
C:\westwood\renegade\game.exe like he said

Download a replacement Here

It belongs in C:\westwood\Renegade\Data

Do post if that doesn't help.
