Hello,  
I'm not sure if anybody has been made aware, RG locate is showing multiple players in its list.  
I've been on there since Tuesday night and haven't logged on since then.  
[http://www.renguard.com/\\_scripts/rglocate.php?q=\\*&type=adv&limit=99999](http://www.renguard.com/_scripts/rglocate.php?q=*&type=adv&limit=99999)

Thanks,

Andy
