When I try and launch Renegade and get Renguard come up, when I click Renegade it cuts out and gives me this message:

[19:31] Bad/Corrupted file data\always.dbs has been found in your renegade directory.  
[19:32] You have been disconnected from RenGuard, .

When installing Renegade again I put in my name and password but it didn't accept it, so I just went on. Any help?

You have to patch your game before installing RenGuard.  
Uninstall RenGuard, get the patch [here](#), patch, then reinstall RenGuard.
