I have a ssgm plugin crate by hex.
i installed the plugin and starting the server.
Veteran.dll is loaded i go on the server and the server is crashed.

What can i do this problem ?

Sorry for my english.

My veteran plugin is not public and so no support is offered to it unless you have access to the
server owners forum

I´m a server owner, i have no access to this forum.
I can no find the forum.
Who can i find that forum ?

Oh I'm sorry is there a rule against not speaking English? Oh wait, there isn't. You lose.

I do as well, but I'm pretty sure there's no rule against speaking other languages here. If someone can understand what he's saying, why not let him?

i have the plugin to
it works nice

but if the new map is loaded
the ranks are back to 0
so everyone is recruit again
it would be beter to play whit the same rank if the new map is loaded

my english is bad so i hope your uderstand

As this isn't publically availlable yet, i'm gonna lock this. You should not use it until he brings out a public release. Shame on you.
