Why the hell would you want it to look that screwed up, I mean if this is 1440 x 1920:

I would hate to Imagen what 1440 x 900 is. That would completely screw up the aspect ratio.

1440*900 is the standard 17/19" widesreen resolution... 8:5 aspect ratio, the one you tried to compare was a 3:4 aspect ratio so I don't really know what you were trying to get at...
