[View Forum Message](#) <> [Reply to Message](#)

Hello everyone,

Do we have any mappers that would share source of their good maps with C&C Reborn?

Right now we are looking for good (or excellent) infantry maps for our incoming public release. (Currently we have 2 infantry maps that are being tested by the staff and the testers.)

Shortly after this release, a version with vehicles will be released.

Contact me @ Renardin@gmail.com

As soon as we have weapons fixed (shouldn't be long) and some more maps, we launch the public beta.

Ask the APB guys if you can use Fissure.

That is because you don't check their website... they aren't going to post updates on the Renegade forums unless they are recruiting or asking for cooperation.

<http://www.cncreborn.planetcnc.gamespy.com/>

As for an infantry map... I would love to submit one... only problem is that I don't have one

If NeoSaber is still around, ask him if you can redo MutationRedux with LevelRedit. The atmosphere's already perfect for it.

If anyone is willing, It would be awesome cool to have a Infantry map that's like in a Tiberian Sun city.

I would so make that map awesome cakes.

But you are correct, the atmosphere is sex for Reborn.

I have a few terrain models, but most are too huge for infantry.

I was once appointed as a mapper for reborn actually. So I shall see what I can do. Some low poly buildings would be nice so I know how large the base needs to be.

Yeah, i could whip something up as well.

crazfulla wrote on Sat, 05 January 2008 17:38Some low poly buildings would be nice so I know how large the base needs to be.

I asked for those last summer or something like that

i havent ever been on reborn before

i arnt that good at mapping but im can do basic stuff

anyways i am helping another mod team and i would help reborn if i knew better map skills

I shall post on the reb forum about it.

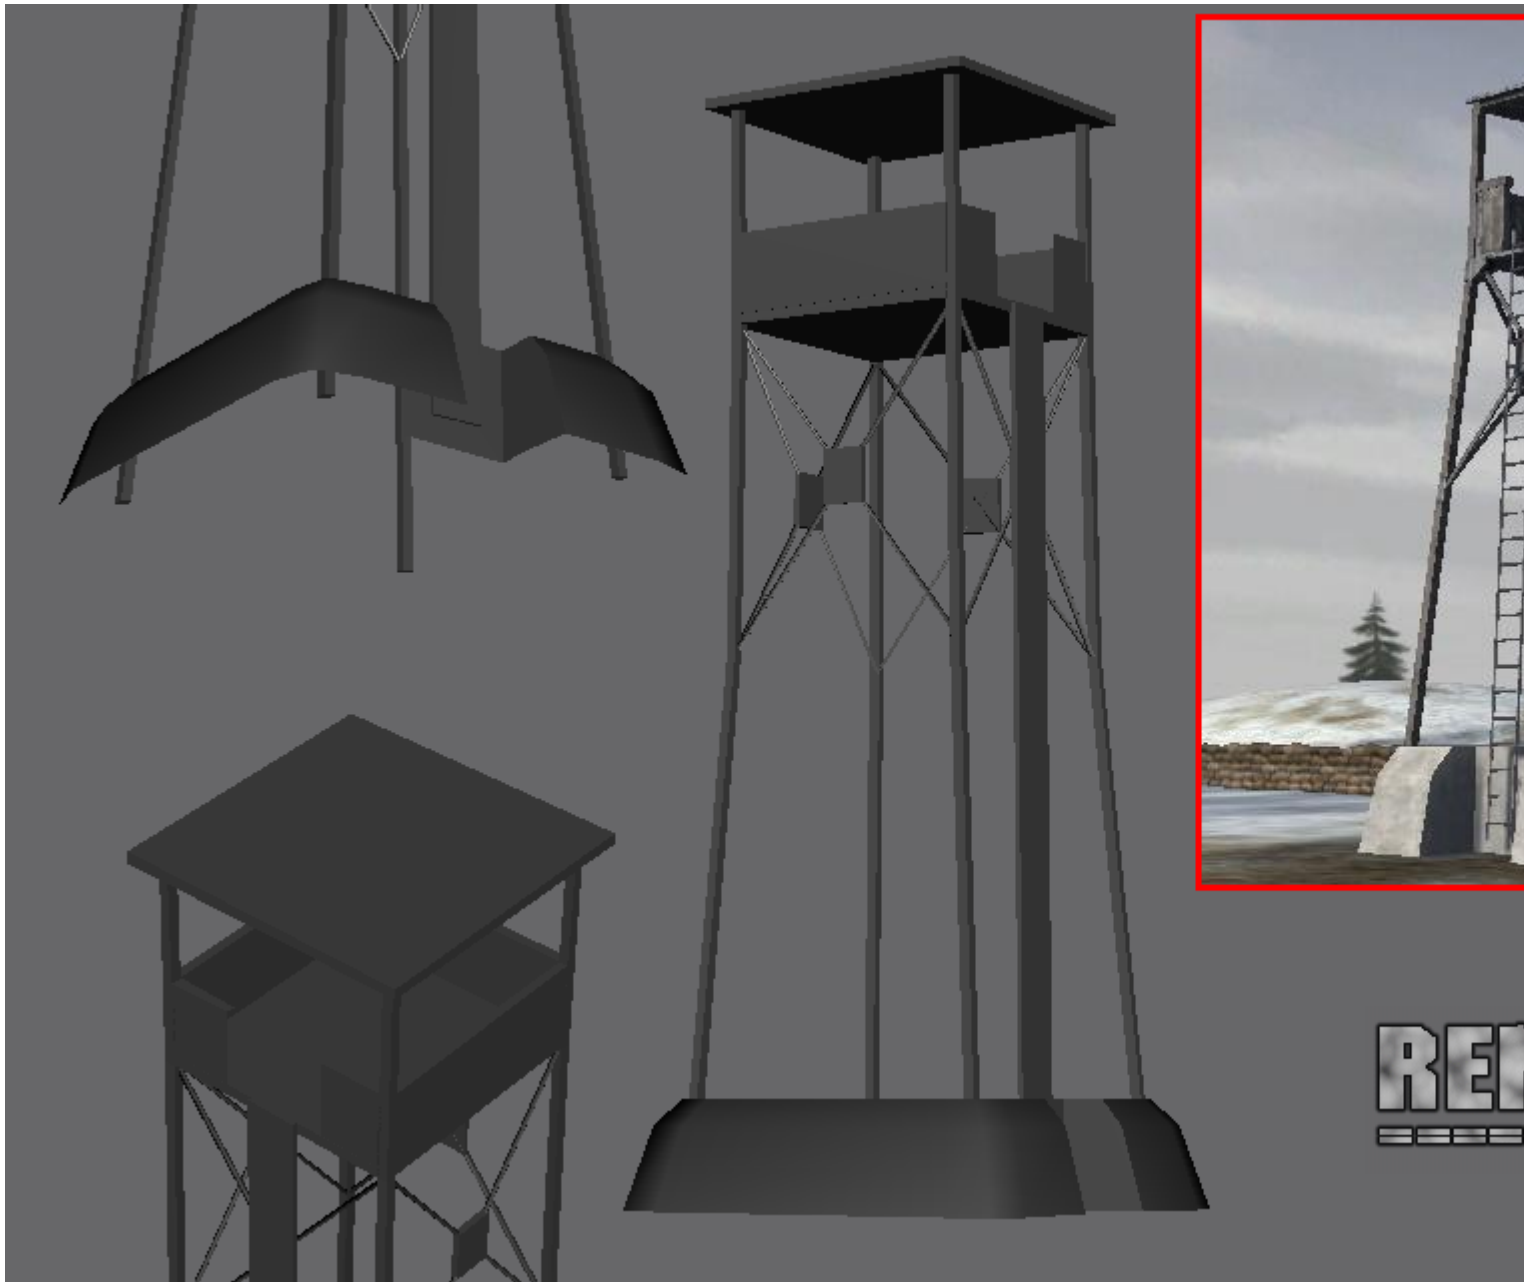

Anyways I managed to salvage some work off my old computer which is on its death bed...

A map for normal renegade but included some reb units and somthing else never before seen (I can't tell as I may yet finish it):

Also some R1942 stuff, this was modelled from the Battlefield screenie in the top right (it is now fully textured):

Yes I spent abit of time on it. Glad I managed to get it back.

Renardin, the proper building models would be even better because we would need to cut holes in the terrain as the interiors go below ground. Would want to cut them the right shape.

Sound great, can't wait

Also some guidelines on the design would be of help. You know, what weather effects, textures and such should we employ to fit in the general feel of the mod/game and stuff like that there
