I don't care if the person made 100 posts or 1000 posts, he/she was part of the community. And when they are leaving and had the dignity to start a thread saying their farewell and well-wishes, is it THAT hard to muster up some respect in return?

TAKE A LOOK

Anyways, bye bye Webmas7er!

Yeah seriously, it's a joke that there has to be a spam forum here now. The over-all intelligence here just keeps dropping. Something really should be done.

Start banning people for periods of time or something. And make Oblivion a moderator to drag his ass back here. Infact, make him incharge of spam controll or something.

No, he left because the WWG community died slow and painfully. It fell apart beyond repair and I don't think he was willing to take the extra step to get it back.

The solution to this is simple. You rename spam forum to Retard forum. You then delete all current posts/topics in it. Everyone who makes a retarded comment gets their post reply/topic in there, and earn themselvs a "Retard Point". There should be a sticky for those who have "retard points", so people can see and point out the "retards"

I apologize for that image spam, I was totally fucking hammered. No, fuck, that's no excuse, I still meant to do it. Well, flame me now and get it over with, because what I did was worth a fag-tory.

I see moderation happening every single day (posts moved to silo, spam forum, etc). Crimson and I also are on the forums several times per day and handle whatever crud we see.

The fact that this thread is about another thread that a moderator locked is proof that moderating is not 0

I think that each time someone posts a retarded post, they get banned. And each time someone posts in the Spam forum, they get -1 post.

KTHNX.

Jesus...I can't believe we have to lock a thread that was pointing out that everyone is spamming serious topics, because people are spamming it too. You can cut the irony with a knife.
