Seriously, and an infinite amount of people already told you.

Write in a way that makes sense or dont write at all.

Including, but not limited to:

- Punctuation
- Paragraphs
- No Caps That Make No Sense

People will like it so much better. And it also benefits you, since people might actually understand what you just asked, and reply. Even in real life.

That is all.

Download NeoSaber's Exploding Tiberium Silos

edit.. The readme included has full instructions how to make them work properly.
