But Hotwires' Boobs are an Inch smaller than Sakuras' are.

I have some Dead6 Skins and I believe, Sakura is included in one of these. I will have a look, give me ten mins. I'll edit this then.

Yes I found her. Looks like on the Polaroid pic from the loading screen.

That's awesome skin but the shirt could be more detailed. Still, nice skin but it might confuse you in the Public servers if you are playing as GDI.

Sakura definately has a D Cup!

I even don't know from where in the deepest areas of the Interweb I DLed this. But hey huh kehrs?

You are right. I will work on this and get this done right and post here with the new skin. Thank you for uploading this.

And yeah, Sakura is probably the hottest female game character.
