It's the same sound used by the stealth tank and AGT if that helps.

No, it is

missile_launch_2s1.wav

It is used by the AGT missile and the MRLS. I honestly don't know ATM if it's the Stank fire sound
too.

The stank does have it's own fire sound, which is similar to that name, then (or, that file exists,
and sounds a lot like the stank firing sound, even if it isn't the one used in game)

Thank you all

It's called:
tank_stealth_fire.wav

A tip for everyone:

missile_launch_2s1.wav
rename it to:
tank_stealth_fire.wav
Its a cool sound !
