Because it'll make me feel better and because it'll get some closure, I've got this video here [http://www.youtube.com/watch?v=fy9gMgTk4CE#GU5U2spHI\\_4](http://www.youtube.com/watch?v=fy9gMgTk4CE#GU5U2spHI_4)

Anyways, as would be expected, people are moronic and like to say he wasn't cheating (one of which was a mod on a server, which I was pretty disappointed in finding out - since as far as i can tell it's blatantly cheating) Anyways, The point of the thread is to find out what anyone who's actually played this game longer than a year thinks of the video. I think I pretty much explain it. It's hard to see because it's on youtube, I think I still have the original that's a little easier to see. If you have trouble, Just pay attention to when I start taking damage in the health range (ie, 200health-0health) instead of looking at the armor. One specific "jump" in health you can see, is that I get hit from 153 health to 101 health. Now, as far as I've played this game I've never had my own GDI rifle do anything but 7 damage per bodyshot and 35 per headshot. And unless my math is wrong, 52 is not divisible by 7 without getting a fraction. However, 52 does happen to be 1.5 times the damage a normal headshot with a GDI rifle does (35) or well, 52.5 (only you can't see your health in decimals)

You can also see my health go down in intervals of 10 and 11, which if you multiply the original GDI rifle damage times 1.5 (7x1.5) you get 10.5. Exactly inbetween 10 and 11. Anyways, I honestly don't care about the person in question cheating, but I'd just like to have some closure in someone who's opinion matters confirming this

I know this probably isn't in the right area, but I'd rather it be here then junk up anywhere else (as for the most part, these "tactics and strategies" are generally useless)

Wiener wrote on Mon, 10 March 2008 02:13 Could you upload the original video?

<http://files.filefront.com/Jalil+cheatingwmv/;9790> Went ahead and found it again and uploaded it on filefront.

And yeah, it's sad that most of the people don't know what they're talking about. Which is why I was sad to have found out one of them was a moderator on a server (I messaged him on youtube, heh) Though, he did cave in afterward. The reasoning behind him thinking the person wasn't cheating? "because apparently the cheat didn't kill fast enough, so that must mean the other person wasn't cheating

For more entertainment, I've also caught this guy cheating

<http://files.filefront.com/cheatwmv/;9790973;/file>

Even though the person in question denied it and some other people. It took quite a bit of convincing to prove that the video was enough proof he cheated (I made another video showing how long it normally takes an APC to kill another APC and compared times) But yeah, pretty funny

what in the netherhell are you talking about? I haven't even been playing renegade in over a year. (i played a bit today) Do I have to go back to one of my posts where I posted the picture if you calling me a cheater? or where you kicked me from the game? I can't believe after a fucking YEAR you still are an idiot. I just don't believe it. A YEAR?! ?!

Anyways, yeah, my computer runs absolutely terrible when I run fraps. It's pretty impossible for me to do well whiel I'm running it. But yeah, I guess I'll admit that I couldn't really hit him whiel I had 12 FPS and oh yeah, he was cheating.

The sad part is, is that after a year of not playing, I probably could still beat you

You say "No one else was hitting me". Right? How the freak would you even know that? It looks like you were playing on a mighty big server, with a lot of people, so I'm guessing you have eyes in the back of your head and you can see everyone around you? Perhaps he got a few headshots in a row? Yes, it does happen.

And this is the freaking guy telling me why I'm a retard because I prefer 500 over 1000...Not only is he using a 500 in the video, hes freaking sucking. Yeah. Someone else kept hitting him (at the exact same time as all of Jalil's shots) for 3.5 damage each time, except for when Jalil got a headshot, in which case someone else hit him for 17.5 damage. That must be it... you fucking idiot. There's really no arguing with the video. If your vision wasn't obscured by Jalil's body as you sucked his dick, you would've seen a GDI Soldier doing 1.5 times the appropriate amount of damage. there is nothing that does 10.5 damage. nothing. there is nothing that does 3.5 damage. I know there wasn't anyone else hitting me because I wasn't taking any damage besides the GDI soldier right in front of me. There was an art that was behind me, the ref had a ton of Nod people freely running around, and same with power plant. It's pretty obvious no one else was around. Besides, Did I mention there isn't anything that \*normally\* does 10.5 damage? I think I did. Maybe I didn't

"He didn't prove me wrong. Not only am I not a part of [SiC]"  
This made me laugh real hard. Thank you

edit: besides the already obvious here, but for this whole little "i must have got hit at the exact

same time as jali did" scenario, you so vehemently (and stupidly) believe. Don't you think it's even more of a coincidence that I stop taking damage when he's fucking reloading?

Since your reading comprehension is embarrassingly weak, let me spell it out more clearly for you:

"Someone else was hitting you" is not a possibility. 3.5 and 17.5 damage are not amounts that are caused by characters in this game--they would have had to be caused by splash damage. This means that someone would have had to been shooting at him not only perfectly synchronized with Jalil's hits (extremely unlikely) but also at the exact same distance away from de7's body to have the splash damage do the same amount of damage each time, while de7 was moving around (so unlikely as to be impossible). Don't forget that it's pretty clear from the video that there is no tank repeatedly shooting at him.

Also,

–adverb Latin. so; thus: usually written parenthetically to denote that a word, phrase, passage, etc., that may appear strange or incorrect has been written intentionally or has been quoted verbatim: He signed his name as e. e. cummings (sic).

I'd advise you not to call other people morons if you're going to continue to act like such a moron yourself.

Hey douchebag- if you haven't noticed, the video isn't very high quality. How the fuck do you even know it was 3.5? You just watched the "intervals" and made a "guess?" is that it? Also, no, its not "pretty clear" that there was no tank shooting him. Multiple times there was a shell from some vech that hit that area, plus....If somebody is behind him, and shoots him in the head at the same time as Jalil, depending on what weapon they use, YEAH- IT COULD TAKE AWAY 50 SOME HP...Even if he is cheating, who the fuck cares? FYI gaytards, this is a freaking game, if somebody cheats, get the fuck over it and move on, you go and waste an hour of your life bitching about it on a freaking game forum and posting retarded, low quality videos of yourself getting owned, and thus get all huffy and mad because, OH NOES, SOMEONE GOT 1337 HAX AND BEET ME NW I GTS 2 GO POST M4D VIDEOZZZZ!!!!!!! Get the fuck over yourself and get a life.

Also. I find the whole "sic" thing funny, because as someone who's studied Latin for years, you'de think I'd notice that- right? You'de also think that someone so quick to judge would realize there is a freaking CLAN CALLED [SiC]which stands for Scientific Initiative Clan...I should know since I was part of it and thus why I was so quick to react, I'm pretty sure you and all your intellectual mightiness can understand that. Don't believe me? I'll be happy to link you to their site once I find the url again.

Anyway, this thread contains anti-lulz and needs to be shut down asap. Can a moderator please save these poor man-children from harm's way and even more complete dumbfuckery and lock it?

You say "No one else was hitting me". Right? How the freak would you even know that? It looks like you were playing on a mighty big server, with a lot of people, so I'm guessing you have eyes in the back of your head and you can see everyone around you? Perhaps he got a few headshots in a row? Yes, it does happen.

And this is the freaking guy telling me why I'm a retard because I prefer 500 over 1000...Not only is he using a 500 in the video, hes freaking sucking. Thanks for proving yourself a worthless ReT@rD who cries because he lost to a soldier. But wait!- U R NOT HAV1NG PLAYD IN 1 YEER SO U GOT XCUSE!!!

Yeah. Someone else kept hitting him (at the exact same time as all of Jalil's shots) for 3.5 damage each time, except for when Jalil got a headshot, in which case someone else hit him for 17.5 damage. That must be it... you fucking idiot. There's really no arguing with the video. If your vision wasn't obscured by Jalil's body as you sucked his dick, you would've seen a GDI Soldier doing 1.5 times the appropriate amount of damage. Thanks for proving yourself a [sic] ReT@rD, dipshit.

You are a moron.

Why would you call him a moron when he proved you wrong...?

He didn't prove me wrong. Not only am I not a part of [SiC], all he basically said was that the chances of that scenario occurring...Could occur....They still can occur, and they quite often do. He has no proof of him being a cheater. Therefore, since he attempts to lambast me without an evidence to support his claims, he is thus, a moron.

Thread over. .

Since your reading comprehension is embarrassingly weak, let me spell it out more clearly for you:

"Someone else was hitting you" is not a possibility. 3.5 and 17.5 damage are not amounts that are caused by characters in this game--they would have had to be caused by splash damage. This means that someone would have had to been shooting at him not only perfectly synchronized with Jalil's hits (extremely unlikely) but also at the exact same distance away from de7's body to have the splash damage do the same amount of damage each time, while de7 was moving around (so unlikely as to be impossible). Don't forget that it's pretty clear from the video that there is no tank repeatedly shooting at him.

Also,

–adverb Latin. so; thus: usually written parenthetically to denote that a word, phrase, passage, etc., that may appear strange or incorrect has been written intentionally or has been quoted verbatim: He signed his name as e. e. cummings (sic).

I'd advise you not to call other people morons if you're going to continue to act like such a moron yourself.

Hey douchebag- if you haven't noticed, the video isn't very high quality. How the fuck do you even know it was 3.5? You just watched the "intervals" and made a "guess?" is that it? Also, no, its not "pretty clear" that there was no tank shooting him. Multiple times there was a shell from some vech that hit that area, plus...If somebody is behind him, and shoots him in the head at the same time as Jalil, depending on what weapon they use, YEAH- IT COULD TAKE AWAY 50 SOME HP...Even if he is cheating, who the fuck cares? FYI gaytards, this is a freaking game, if somebody cheats, get the fuck over it and move on, you go and waste an hour of your life bitching about it on a freaking game forum and posting retarded, low quality videos of yourself getting owned, and thus get all huffy and mad because, OH NOES, SOMEONE GOT 1337 HAX AND BEET ME NW I GTS 2 GO POST M4D VIDEOZZZZ!!!!!!! Get the fuck over yourself and get a life.

Also. I find the whole "sic" thing funny, because as someone who's studied Latin for years, you'd think I'd notice that- right? You'de also think that someone so quick to judge would realize there is a freaking CLAN CALLED [SiC]which stands for Scientific Initiative Clan...I should know since I was part of it and thus why I was so quick to react, I'm pretty sure you and all your intellectual mightiness can understand that. Don't believe me? I'll be happy to link you to their site once I find the url again.

Anyway, this thread contains anti-lulz and needs to be shut down asap. Can a moderator please save these poor man-children from harm's way and even more complete dumbfuckery and lock it?

l2play =(

Well, I guess it's just that a bunch of your posts as of late seem to be filled with insults, and have a bad aura about them. A few of them just jump out as being immature.

Some of the tensions in this thread, and others could be averted if it weren't for the mudslinging.

I've given you a time, what more do you want? It's more the fact that I know the minute I'd add you, you'd be spamming my MSN and I'd just block you. I've given you a time. I ask again, what more do you want?

edit: just because it boggles my mind. Why do you continue this charade like I'd never have played you? You know I'd have kicked your ass, I know I'd have kicked your ass - the entire renegade community would have placed bets that I'd have kicked your ass. The fact that I've had pictures of you calling me a cheater, that would be justification enough as it is. I mean honestly - You thought I was good enough to cheat. Do you \*really\* want me to go back and just use the search function? Are you going to deny calling me a cheater? Kicking me from your server? I could prove both, if it's what you want. you tell me.

I know that after a year of not playing - I know \*now\* you'd actually be willing to play me, but not before. Just take a look at the spoony 1v1 thread. You don't even want to play spoony when you supposedly didn't play for one month. Here I am, coming back from playing a game that bears no resemblance to Renegade after a YEAR, and I'm willing to play you. Here's a question, killer. Did you ever actually have that game against Spoony yet? Or would the fact that you know you'd lose so terribly, be too much a blow to your internet-gaming ego, that you won't play him? It's not even as though he's like some undisputed renegade champion either - sure, he's played for a long time and has played in a lot of clanwars. All the more reason why it wouldn't even hurt to practice against a good player. I used to play 1v1s with my clanmates back long ago. Mrpirate, jimbo i remember mostly. I tell ya, I didn't get any skill by beating omg mwright some moronic forums troll. On top of that, bragging about it, as if it was something I could take with me to the grave.
