Ok people, I just reinstalled renegade, cause I want to restart a bit... Not gonna play it full-time again, but just gonna use it for some modding purposes. I seem to have a problem with the menu huds. I'm starting by modding the vehicle/infantry/misc icons, but there is one small problem...there seems to be a yellow gradient overlay on the icons, which I can't find the texture of. Does someone know the name of this texture?

Nope, not the one...

I mean this:

Click to enlarge

Where can I find hud.ini? I see everyone talking about it, but i'm unable to find it in either always.dat/always.dbs/always2.dat/Data folder/whatever...
