As aircraftkiller suggested, you should use the search function and learn the history of the arrow, and then draw your own conclusion.

---

Here are some links to old posts for the search-impaired:

<http://www.renegadeforums.com/index.php?t=msg&goto=97219>

<http://www.renegadeforums.com/index.php?t=msg&goto=238304>

There are many more, although you would probably have to talk to someone who is really old-school Renegade to get a good idea.

Well, as far as I heard, none of the above...

So unless BHS is doing something that we as partners don't know off.... it's not BHS doing something.

Perhaps that EA asked Crimi an favour or something?

Not really, I am 100% sure no better game than renegade will ever be developed, let alone released. But, ya thats what I was getting at, if they do add a C&C (aow) mode to the game=more \$\$\$\$ because of everyone who has (still) played this game and loved it (what, 50,000+ added sales for 1 game mode?). I can only speak for myself, I would actually pay to buy it if it will have a

aow-type mode.
