Hi,
Im new but my problem is that when i install First Decade (comes wif renegade) i tried to play renegade and it wont work, so i tried to crack it, ive cracked alot of games so im used to but for renegade i cant!

PS,
Running On Gay Vista

Do you run the setup in admin mode?

It wont work it comes up with RENEGADE then it goes not repsonding and it goes off.

Yes all ways on admin

so is there a working way to crack the game?!?

OK, if you bought the game then there is no need to crack it. Also, do not expect to get an answer within 5 minutes.

Now please make a detailed description of what actions you do and what goes wrong. Also please do insert screenshots showing the problem and stop acting like a 12 year old.

Thank you.

OK!
Its The First Decade I Install all the games i had 2 crack zero hour which work perfectly and Renegade just wont work.

Problem
Cd does nothing right!
Well none of them work!
It will show like the load screen then it wont respond and it will be taken off.

So any clues for wat to do?

Run the setup in admin mode.

Run all game EXEs in XP compat mode and admin mode.

Please stop double posting. We don't spend our whole lives waiting for tech support posts, despite what my profile's posting stats tell you.

how do i make them xp compat?

(shithole vista)

Right. Format your posts sensibly and unless you can produce technical arguements for Vista's failings please restrict your comments on the matter. Now for the problem:

This tells you how to get a program into XP compat mode (Ignore that the instructions are for Renguard, the same is true of any program)

this sounds alot like the problem i had...

here is a link to my topic and there is a solution there towards the end.

 http://www.renegadeforums.com/index.php?t=msg&th=28999&start=0&rid=2 2094
now it is not a crack, and you still have to use your game disc.
