I have, still got the game, also got Abes Exodus

Never played the rest though? In fact.. i never even heard of the other games if they continued it :S

Munch's Oddysee was fucking sweet, first game I got with my xbox...and I played it through within like 3 weeks.

Then they made one where it's like an FPS, which kinda sucked dick I heard.

I would love to play this again, but i can't find it
I played 1 and 2.

It was one of my favourite Adventures (beside Lara "double-D" Croft and some others)! I played it on my Playstation years ago and I know there's a PC version available.

One of the Classics like Driver 1... but this is another story.

The only problem with driver was the 1fps. Constant 1fps... It was such a cool game with very realistic driving physics but... the 1fps hurt it a lot.
