Stop asking people about their preference and go check them yourself. Everyone will just recommend the server they play in, just like I'd recommend you KOSs2-server.

Edit: XWIS = WOL. I'm sure we've went over this. Just connect as you normally would to WOL, and voila. If you don't see any servers, go to the Technical Support category and read up on how to fix the problem because the servers do, in fact, exist.

Heaven forbid that we don't want to hold your hand every fucking step of the way. Seriously, if you're potty trained, you can figure this shit out on your own. You are potty trained... right?

The vast majority of us have figured shit out on our own. You can't go through life being told every god damn thing and expect to make progress. It's called effort, and it doesn't take a Hell of a whole lot of it to figure this game out. FFS.

The son- err, point remains the same. It does take just a LITTLE effort to figure things out. We don't really want to hold your hand. We'll help for a little while, then after that, not so much.

No, your posts are ALWAYS constructive and relevant.

/sarcasm

Nobody is perfect, but you've posted your fair share of trollish crap in your short tenure here. You're certainly not bad as many, but you're certainly far from a model poster.

I know I'm all that much better, but I'm not claiming to be, either.

cheesesoda give him time...he posts in the forums and he plays the game. MANY new members

---

have posted but left after their 1st or 2nd post. We want them to stay.

There were gaming forums where I was bumping 2-3 year old topics. I used to bump those threads from 2004 about Nod Laser chaingunners because I found this game, and was excited. Nobody cared lol and they pointed out my n00bishness..Sure, I had my fair share of criticism,,,from many users lol...

but I eventually learn the tricks of the forum trade...so give time plx thx.....

All I pointed out was that he isn't innocent, as he pretty much implied. Are you going to try to argue otherwise? It wasn't a criticism of him, it was just me pointing out the foolishness of pointing fingers when he is just as guilty.

As for hiding the last sentence, it wasn't really all that relevant, so I hid it rather than deleting it.
