To add textures with "UVW MAP" on the right position? i cant  
skin my rifle and UNWRAP looks stupid and hard

so is it possible to make a perfect skinned gun with "UVW MAP" ?  
if yes could someone give me a good tutorial ?  
anyways here's my rifle

For best results i would recommend Unwrapping it, it may be hard but it is far better that just slapping on a planar map on both sides and have it look flat and unrealistic!.. nice model though
