I was on AtomiX-GaminG AOW (RR server) a few minutes ago when I became suspicious when my teammates and I were constantly killed while walking around the base in less than a second, supposedly by AC-C4~Smoke.Masters with an autorifle.
The repeatedly happened, even when standing inside a building right after spawning.
Unfortunately a nickname can be spoofed easily without a password, and that's the only information I can give you along with the videos. No moderators were online.

Videos are Xvid encoded. Please do not stream from the server.

RR only works fully if the client also has it. And I'm pretty sure it doesn't block all existing cheats either.

Only very stupid cheaters download the RR-client, though .

You can't make him look worse then he already is.
