Hi i just registered on this forumsi finished the level "tomorrows technologie today" then it went to the other level. But i only had 30 armor, so i decided to finish "Tomorrows technologie today again" and i finished this map but this time it didn't went to the next mission..Now i lost my save game of the last map is there anyone who can send me a save game of the last map To show i realy finished the map i got screens

Maybe there's a specific place you need to go to finish the mission. Just maybe. Haven't finished that mission yet. I'm on that mission.

I have that problem too. Whevener I finish that mission the game crashes to the desktop. Not an easy bug to work around. I'd sure like a savegame from the next level.

You can't beat a mission twice, after you beat it the first time each time you go back it is just for fun. Try the Autosave it should be the next mission.

Autosave doesn't work either. It starts loading the next mission, but when it's like 80\% done it crashes to desktop.
