So finally! This skin changes the default Havoc suit to the famous blue/orangey tan Dead 6 uniform! Havoc looks very nice with his other mates now!

Here is a preview:

Included:  
-Dead 6 Havoc skin  
-Modified GDI Character icon  
-Modified Havoc icon

Enjoy! what u think about this? It looks very nice in-game. My first release...

I agree, havoc is awesome in that suit. You should make one for sukura, if i remember, she was a dead six b4 2. I forgot, but you should release the hole dead six thing, with re-skins for all dead six. Make them look like the picture:

That would be nice. But still, you have the best havoc skin I ever seen.

=Samous

Look out for my new nic coming soon, WNxC-130

Thanks to all for your comments. @ Scrin!

@ Samous: Thanks! I am very surprised myself as I never expected the Havoc skin to be very nice in-game. I checked with all maps too.

I guess a nice Sakura Dead 6 would be next. There is already one out ATM...but the blue shirt looks too plain in-game (especially the backside).

I actually have to say that's pretty good. I lol'd at people claiming it could be used as an advantage skin, considering deadeye uses the same exact outfit. It's hardly an advantage. Especially considering Renegade uses target boxes anyways, it doesn't take that much to realize someone is there... Especially with the blue ramjet beams going around...

Just various forms of camo as well as a stealth suit.
