Hi all,

I would like to have a skin for a knife or/and a punch skin. It would be fun to be able to melee attack your enemies with a knife or just with your fists. I saw FynexFox already did the knife thing, but I couldn't download it with this link:

<http://www.treyb.com/fynexfox/knife.avi>

So had anyone made a knife for in renegade or made it so, that you can punch?

Kind Regards,  
Brian

I can't help you because I've never fooled with it before, but there is a Cnc\_Melee\_AI weapon you could perhaps implement...

A melee weapon is a weapon with a range of 1 and an effectif range of 1. For the rest you will have to animate it properly which is the hardest part.

Hi,

But the thing was, that I've heard  
that you can bone a knife, and some  
one already did it. But I can't find  
the correct link, so does anyone know  
if anyone made it before? Because on  
this forum they say it had been done  
before. They say you can swipe it, and  
that is really cool

Here is the site of the forum:

[http://www.renegadeforums.com/index.php?t=msg&goto=227364&rid=24329&srch=knife#msg\\_227364](http://www.renegadeforums.com/index.php?t=msg&goto=227364&rid=24329&srch=knife#msg_227364)

If you know where to get it plz let  
me hear it

Kind regards,  
Brian

Urimas made a knife, pretty sure rp2 uses it. Look for some of his super huge topics.

Yeah I was about to say. I remember him/her.

Sucks with the WoW and shit, he/she (I forget) was kind of cool and seemed to have a lot of ideas.

OH WAIT, now I remember, it was actually based off Renegade beta concepts, wasn't it? Possible that both were based off 'em. And, pretty sure fynexfox was a guy.

Yes, the knife used in RP2 is the Renegade beta knife.

Yes, the knife used in RP2 is the Renegade beta knife.

You probably mean the knife from the command mod? (the recreated one)

Hi,

I finally have a great weapon.  
It's a Katana, I have all the  
W3D files. But I don't know where  
to place what. I have made a  
Screenshot from all the files, so  
you can see what stuff I have.  
Could anyone help me with it?  
Kind Regards,  
Brian

you should do it using level edit (get it with Renegadepublictools2)after exploring it a bit u'll know how to use it (and of course www.renhelp.net will help you) just set the range and effective range to 1 the speed you desire and the damage u desire.
