lol, Scrin you do make some really cool stuff.

Why is it that you don't release anything? What do you do with it, just archive it all?

There are some crash bugs related to the HUD in scripts.dll that need fixing before he releases anything.

to show off and make everyone else jelious

Out of curosity, is the Command & Conquer Scrin actually on your game, or do you add it to your pics as a type of trade mark/signature

Well judging by how the logo has a drop-shadow behind it, I would say it was added in after the shot was taken.

there it is

EDIT: Scrin, you have edited renegade sooo much, you could make your own total conversion mod out of it all.

I have to agree with this actually, My Ren is pretty skinned up and have edited alot of sounds but these only take me so far, scrin has modeled loads of things which is beyond me.
But ye very nice hud, and nice sniper rilfe models

lol guys, i have remake all ren sounds for all chars/tanks/shoots, make it more HD (to fit into my sound sorrounding system G51)
my specifications its the sound effects
that why all my ren videos got only random soundtracks background...like Sam remix

here sample: put it into data/go ingame/buy hoti/drop remote C4 few times/lul its just 3 min work

---

and wtf with my logo? sure i use photoshop to put them on, creating alpha shadow .dds is not best point

I think he will release it as soon as Scripts 4.0 are Released.
Reborn means the same as far as i understand; Reborn knows everything here in the Renegade "World"
