Just a heads up for people looking for a good medium tank skin. Altzan made a nice looking frozen med tank for the holidays!

Check it out here (and don't forget to scroll down to post 3 where he posted a 2nd version of it).

Update: check out the complete skinpack here.

The process used to make it is pretty simple, I'm thinking of writing a quick tutorial on how to do it... post it on Renhelp maybe

When was the last time we had really important Renegade related news? 7 months ago with the announcement of TT, which wasn't actually anywhere close to a release?

We might as well point to other Renegade related information that can interest the large public .
