can you post SS in ALL the spoilers, i don't allways have time to test out 500 skins to see if i like them, so prefer to see the SS of them first, and then download and complement if i like them.

(what does that command do?) you can enable and disable the hud by tiping "hud 0" and "hud 1" (in the console)

0=off 1=on..

it leave the score and credits tho, and i remember there was a file that removed that too.. forgot where, maybe game-maps

It was just a suggestion. You can have Resurrection and still Run Renegade without it, and use XWIS or whatever.
