---

I have run a server with brenbot1.52  
include :  
SSGM 2.0.2 by WhiteDragon  
BRenBot.dll by Hex  
SQLite Database Browser  
IPBot Plugin 1.1  
Custom Commands Plugin 1.1  
Ranks Plugin 2.03  
it run without crash ,  
when i use remren to type musica \*\*\*.mp3,my client plays the mp3 ,but other clients doesn't .  
anyone who pls tell me how to fix it thx a lot my English is poor ,pls dont mind

You can only use MP3's that are included in always.dat because those are the only ones that everyone in your server has.

Clients need an up to date scripts.dll for the musica command to work. You could try using the jukebox plugin from new.brenbot.com, it adds an automatic jukebox to BRenBot which continually plays all the available music tracks in Renegade. You can configure it to only play certain tracks via the config options, and you can set the default state to on or off (clients can type !music on or !music off to toggle it on or off for themselves)
