Hi yes i know Its wrong but how many people here care?

I'm making well modding my TeamSpeak, and need to know somethings if you guys know.

1.How do i get the icons to change here are some pics of what I'm talking About

2.To be able to add menu's and stuff to it if it's posable
3.How to make it so it open's muiltable teamspeak's.
4.Change the taskbar tray icon.
5.Change other window looks.
6.Maybe changing the text colors on the side and buttom of the window.

Sorry, but AFAIK Teamspeak is a copyright protected program which shouldn't be edited. Unless you can show me something that states the opposite, topic closed.
