Release removed. You can post it again when you removed the swastika's.

The HUD is pretty retarded, but posting a swastika is hardly racism or harassment or hate speech or flaming.

You have no clue how badly this symbol is a clear sign of Nazism in Europe, I think.

Actually, I do. I lived in Germany for 3 years and I know how Germans react to swastikas.

However, Americans generally don't. Whoever he made this HUD for is probably just some stupid punk, but I doubt it's an actual Nazi.

Unpleasantly. When I was 9 or so, my American friends and some of the neighborhood Germans decided to play war(yeah, we were those kind of kids), and someone called the German kids the Nazi team. An 11 year old kid punched him right in the face, and when his parents complained to the German's parents, they slammed the door in their face. The kid probably didn't even know what it meant, but that just goes to show how serious of a thing it is.

I understand your disgust about this, Goztow, I'm simply pointing out that the dude that made this probably has no idea what he's doing, and this is hardly a racist attack.

actually no it's not.. the original symbol is not tilted like that.. but either way, it has made such an impact in history, either way people will recognize it the same.

not your fault, and i don't think anyone thinks it is...

Nice set though, BTW: Hitler wasn't German you know, so don't think all Germans are NAZI (is there a better angry face i can make for this?)

Quote: The German (and Austrian) postwar criminal code makes the public showing of the Hakenkreuz (the swastika) and other Nazi symbols illegal and punishable, except for scholarly reasons. It is even censored from the lithographs on boxes of model kits, and the decals that come in the box. It is also censored from the reprints of 1930s railway timetable published by Bundesbahn. The eagle remains, but appears to be holding a solid black circle between its talons. The swastikas on Hindu and Jain temples are exempt, as religious symbols cannot be banned in Germany.

Further information: Strafgesetzbuch § 86a

(Shorted Text out of Wikipedia)

A bit more shorted -> You arent allowed to show Swastikas in German Public, except in some temples and for sholarly reasons

Quote: Nice set though, BTW: Hitler wasn't German you know, so don't think all Germans are NAZI Angry (is there a better angry face i can make for this?) He was Austrian. And yes, not every German is a Nazi, there arent much Nazis in Germany anymore.

Pretty much 40% of America is descended from Germans in one way or another.

Yeah, I lived around Kaiserslautern as my dad was U.S. Army, we found some pretty cool stuff in the woods sometimes, once I remember there was an old metal crate with the Iron Cross on it.. it's amazing when you think how long ago things date back.

They are called swastika too.

In our town we got some bunkers too, but they arent WWII ones, they are from a Firework Factory that isnt located there anymore, because it went on fire.
