I had nothing to do, so I made this Mini-Harvester Crate Replacement. This will replace the multiplayer crate (the big one) with a GDI Harvester replica.

Here's a short preview:
YouTube - Mini-Harvester Crate Replacement

Enjoy it

lol, that is so cool looking, but maybe a lil smaller? kinda looked a bit bigger than the box was.
good job though

ChewML wrote on Thu, 05 February 2009 15:28lol, that is so cool looking, but maybe a lil smaller? kinda looked a bit bigger than the box was. good job though

I measured it with the box. The box was:
- Height: 2
- Width: 2
- Length: 2

I created a new box with those dimensions and scaled the harvester to the size of the box. It might look bigger, but actually it's the exact same size

I'm at school so no YouTube for me
I'll take a look when I get home.

Lol. Un-filtered internet at college ftw

OT: I laughed when I saw it!! Good job!

SSnipe wrote on Sat, 07 February 2009 06:41Its a really cool thing, But question...Why did you choose the harv?

Don't know. But I had they idea to do the same for ALL vehicles and then release a big pack so players can choose their favorite vehicle as their crate. For now the harvester was just a small test.

That's.....different, now all you need to do is make the crate a mini Obelisk of Light that shoots at anything near it...not doing any damage of course

Don't know if that's possible, and I think it's considered a cheat since it will fire at sbh too...

I'll be making a crate for EVERY possible vehicle. This will also include the special vehicles like sedan, pickup truck, recon bike etc.

I'm also going to create a crate replacement with building miniatures, but I don't know the names of all exterior parts.
