For some reason i suddenly cant play on any servers online they wont even show on the list of servers(or games whichever they are called). I'm just wondering if anyone has had this problem or can help.

Are you sure the login username and password are correct?

If not have you added anything or installed anything onto your Renegade lately? Skins, Scripts, Objects.ddb, etc?

look for files, cameras.ini, objects.ddb, armor.ini or vehicle w3ds (excluding harvester) and delete them
