Scrin pimped the original Ramjet! The beta scope and bullet count are animated, and the ramjet now has some nice light effects.

Here is a video

And a screenshot

why only a posting a screenshot of it?  
I mean, now I can only look at it, can't even use it.  
It's not that spectacular and don't think I ever get to play whit it, now will I?

Nobody wants Scrin unbanned, and you trying to troll Renforums for him even after he's been kicked out is just pathetic.

Why is he banned anyway?

Because he's a cheating fuckwit with the IQ of a five year old.

Stop advertising his work and stop trying to get him unbanned, he deserves what he got.

This quote should be repasted in any of these threads.

Hopefully there will not be any more of these threads soon, and an update to the rules concerning threads like this.  
Till then, to hell with it, I'm locking this shit.

Just for info as it was asked: this is why Scrin got banned.

\* Scrin, Niko (login: Scrin)  
warning spam in tech support topic (18/02/2008)

warning posting cheat (10/12/2008)

\* Samous Mods (login: crytek) = Scrin  
warning insulting without any reason (11/10/2008)

Next = 2 weeks ban

ban 2 weeks + doubled twice for ban evading (2 months total): 4th warning (24/01/09)

These are just the few that I bothered to keep track of of course.

This is for info and shall not be discussed.
