why my level edit wont work

when i try to open a map my LE crashes and i asked whether i want to send a report to microsoft or something like this

what is the problem

### Missing Presets

The following objects were removed from the level because their preset was missing. You can remap these objects to a different preset by double-clicking on the object in the list below. Where possible, a best guess is entered by default.

Remove

map is trying load presets that aren't in the objects file that is why it is crashing.

You need need to make level edit open the always.dat there is a tutorial on renhelp to fix this.
