I heard Renguard was outdated and no longer works, is this true? I keep getting this error.

What should I do?

Your first sentence is true. This error seems to be related to a firewall issue, though.

My advice: unless you're forcerenguard'ed somewhere where you absolutely wanna play: uninstall renguard.

Well I treid turning off my firewall, but I still get a bunch of errors, anyway I am not forced to use it but I am sad to see it go.
