Throughout my many years of playing Renegade I have come to notice that for whatever reason there is a VERY limited number of building skins available for download. I have decided to share a bunch of them that I have made with you guys. I am only uploading some of my GDI buildings for now. NOD will come later.

BLACK AND BLUE BUILDINGS-

GREEN AND DARK GRAY-

WHITE AND LIGHT GRAY-

BLACK AND GOLD (for Steeler fans lol)-

These are only a few that I have made. If anybody has any special requests please pm me or post here and I can try to make you what you want. Please post some feedback/suggestions. Hope you all enjoy!  
-Dave

O hoo noes wrote on Sun, 17 May 2009 06:37-since i cant edit my post-

The reason I didnt include that is because it changes both the nod and gdi pp and the area around the doors on both refinerys. It also changes the base of the bar and agt. I've uploaded a darker one that should match the black buildings... just keep in mind the top of the nod pp will change also because they use the same skin. It looks fine though.
